FILE HEADING

Fish and Mutton Stalls, Bangalore City

From

The President, Bangalore City Municipal Council

No 282 Dated 6 6. 1910 Received 9-6-1910

Diary No 8910	Enclos 1	Spare Copies	Serial No 16

BRIEF ABSTRACT OF LETTER

Submits for orders copies of the Health Officer's report and of the Municipal Council's resolution recommending that the present Mutton stalls being sufficiently near the vegetable market, may remain where they are and that they should only be improved on sanitary lines

NOTES AND ORDERS

The desirability of removing the fish and mutton stalls of the City from their present position was being repeatedly impressed upon the Municipal Council since December 1905. In December 1909, the Municipal Council resolved that

Notes—First sheet

Serial No

Hel 0

it was absolutely necessary to remove the stalls from their present position and that the Health Officer should select a more eligible site for their location.
(Vide Municipal File 217-06, Sls 2-6, 8 and 10 & 15).

2 On the report of the Health Officer that it is undesirable to locate the mutton stalls near the new Slaughter House on the Bantoo Bazaar Road and that for purposes of public convenience it is desirable to group the vegetable market and the mutton stalls together, with separate entrances for each, the Municipal Council have again resolved that the present mutton stalls being sufficiently near the vegetable market, may remain where they are. This resolution is inconsistent with their former one

3 It is submitted that in 1905 the Senr Surgeon recommended that both the mutton stalls and the fish market should be removed from their present position to the vicinity of the new Slaughter House as he considered them objectionable in their present position on sanitary and aesthetic grounds. This opinion was communicated to the President vide Sl. No 6594-5/Mel 216-05-1.8, 23-12-'5

P.

Note—Contn

GPB—55,000—27-4-07

Serial No

wherein the President was asked to select a place and submit an estimate for the consbustion of the Mutton and fish stalls near the new Slaughter house or in some other more eligible locality or localities in the City. As the Health Officer's opinion, disapproving the location of the mutton stalls near the new Slaughter House, is at variance with the Senior Surgeon's opinion in his memorandum, the latter's Chief Secretary Secretary Commr. may if approved, be again unofficially consulted in the matter.

4 In another file, which is also herewith submitted, the Senr Surgeon recommends that the streets to the north and west of the Victoria Hospital be kept free from all shops of an objectionable nature and he says much stress on nuisance created by flies and dust laden with organic refuse.

9 In view of the requirements of the Veterinary Hospital, I am to request that all possible sources of infection of the patients should be removed from the road surrounding it. The meat market & the Railway stand, are pointed out as dangerous neighbours the hospital could well be dispensed with. I consider their removal a matter of urgency. I do not agree with the Health Officer that the meat & vegetable markets should be closed down altogether. I object to having these markets on the ground adjoining the sheep pen hospital, because the danger is not a permanent nuisance in view of the drainage scheme fully under which is soon to be put in action. I would say there is reason for such markets as the road side between the Race Club house & the road

9 In view of the requirements of the Victoria Hospital, I am of opinion that all possible sources of infection of the patients should be removed from the road surrounding it. The meat-market and the Bandy-stand are possibly about as dangerous neighbours the Hospital could very well be favoured with I consider their removal a matter of urgency

10 I agree with the Health Officer that the meat and vegetable markets should be close to one another But I think his objection to having these markets on the ground adjoining the sheep-slaughter-house, because it is damp, is not a very serious objection in view of the drainage scheme for that area which is seen to be put in action I would say there is room for such markets on the road-side between the slaughter-house and the road It should be raised on a high plinth so as to secure it from all possible dampness The verandah should be very free-the ventilators fitted with strong iron netting, such as one sees in railway carriage windows Doors should be double and self closing If these precautions are observed, flies can hardly gain admission, or only in small numbers

11 However, there may be other sites equally good-and known to the Health Officer and President of the Municipality, but I am not aware of them-If there are, one of them might be adopted But the vegetable market and the meat market should be alongside each other for the convenience of the public Of course, in building a meat market by the side of a public road, the builder must so arrange the entrance and the windows that the nature of the operations carried on in the interior shall not obtrude itself on the public gaze his [illegible]

No 282
Encl One

Office the Municipal Council,
Bangalore City 6th June 1910

From

The President, Jnl 217-06/8/16
Municipal Council, Bangalore City

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments, Bangalore

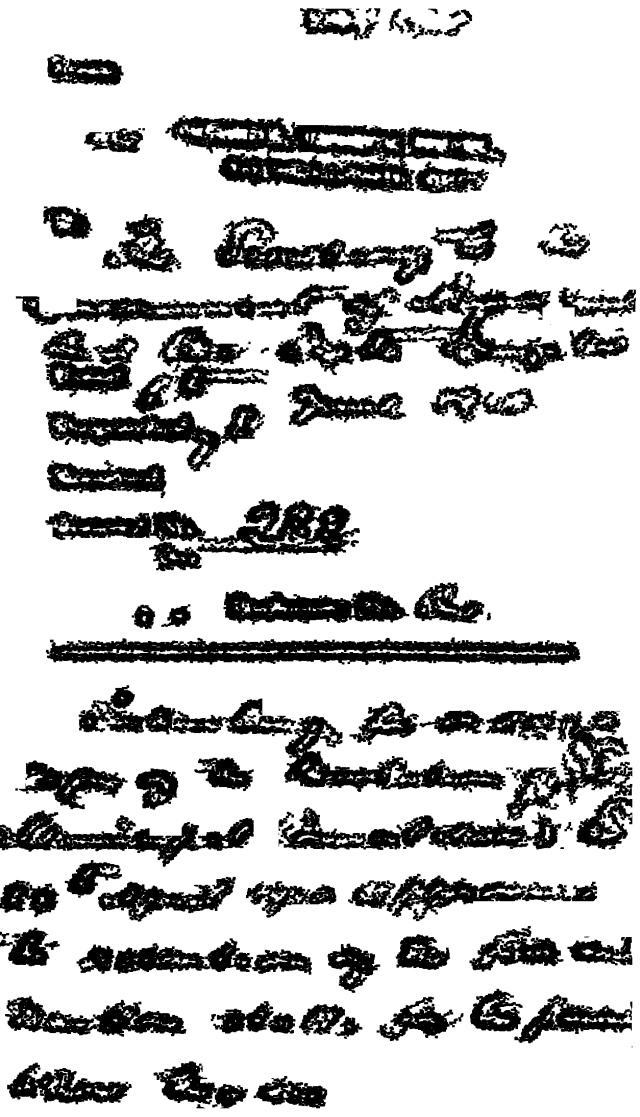
Sir,

With reference to the correspondence ending with Government Proceedings No 6699/Jl 217-06-15 dated the 3rd February 1910 regarding the disposal of the site and buildings of the old Slaughter House and the Fish and Mutton Stalls and re-building the latter in some other suitable locality, I have the honour to forward herewith, for the orders of Government, copies of the present Health Officer's report dated the 19th March last, urging the necessity for the vegetable market and the fish and mutton stalls being located in one place and of the Resolution of the Council dated the 28th April 1910, approving the retention of those stalls for the present where they are

2 Until the selection of a suitable place, the stalls in question have to continue in their present situation

I have the honour to be
Sir,
Your most obedient servant,

The President



2

No 375 Memo

I am not in favour of of locating the mutton stalls near the Slaughter House on Bamboo Bazaar Road as the soil is very damp and water-logged

2 For the convenience of the general public and proper Municipal supervision, the Vegetable Market and the Mutton Stalls should be grouped together, but so arranged that the two markets have separate entrances

3 If there is no idea of shifting the present Vegetable market, the private garden just by the side of the main drain behind the Vegetable market may be acquired and the mutton stalls constructed there with high walls all round

4 In the event of removing the Vegetable Market from its present situation, the question of constructing the mutton stalls may lie over till the site for the former market is fixed, as both have to be built together

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore.

Sir,

With reference to your letter No. 816/Ml.217-06 dated the 27th July last and subsequent Government Proceedings No. 1460-1/Ml.452-09-10 dated the 17th August 1911 IN RE removal of the meat and mutton stalls from their present situation, I have the honour to state that the City Improvement Committee finally selected a portion of the Ammachowdripalya (to the East of the Halenpalya) as a convenient place for locating the meat, fish and fowl markets. The Sanitary Commissioner inspected the place and has approved it. Thereupon, plan and estimates were prepared and placed before the Council at its Meeting held in July last. The cost of compensation for the lands and buildings to be acquired was estimated at ₹10,753. The Council approved the proposal. A copy of its Resolution, together with plan and list of properties to be acquired, is herewith submitted for favour of sanction.

2. As there is no provision for this project in the current year's Municipal Budget, I beg that the cost therefor may be sanctioned as a special grant for this year.

3. As already reported in this Office letter No. 142 dated the 11th January 1910, the existing site and buildings are roughly estimated to realize, if sold by auction, ₹10,000. They are likely to fetch a much larger amount, considering the keen competition for shop sites on the Mysore Road at present.

4 Having in view the urgent necessity for the removal
